

7. DATABASE MANAGEMENT SYSTEM**UNIT: 33****Author: Dr. S.K. Gupta**

S.No.	Title	CD No.
1.	Introduction	797
2.	Three Layer Architecture	798
3.	Three Level Architecture	799
4.	Data Models	800
5.	Hierarchical Data Model	801
6.	Hierarchical Data Model (Contd.), External Level of IMS	802
7.	Hierarchical Data Model (Contd.) Data Manipulation Language	803
8.	Hierarchical Data Model Data Manipulation Language (Contd.)	804
9.	Hierarchical Data Model, Data Manipulation Language (Contd.)	805
10.	Hierarchical Data Model Internal Level (Contd.)	806
11.	Hierarchical Data Model (Contd.)	807
12.	Hierarchical Data Model (Contd.)	808
13.	Network Model	809
14.	Network Model (Contd.)	810
15.	Network Model (Contd.)	811
16.	Network Data Model (Contd.)	812
17.	Network Data Model (Contd.)	813
18.	Relational Model	814
19.	Relational Data Model	815
20.	Relational Data Model (Contd.)	816
21.	Relational Data Model (DML Contd.)	817
22.	Relational Data Model (DML Contd.)	818
23.	Design of Relational Bases	819
24.	Design of Relational Data Bases	820
25.	Design of Relational Data Bases (Contd.)	821
26.	Design of Relational Data Bases	822
27.	Implication of Functional Dependencies	823
28.	Implication of Functional Dependencies	824
29.	Criteria for a RDBMS	825
30.	Concurrency Control and Recovery in Data Bases	826
31.	Recovery and Concurrency Control	827
32.	Structured Query language (SQL)	828
33.	SQL (Contd.)	829
