

# ONLINE WORKSHOP

On

“Your Key to Unlocking R&D Productivity using ‘CAS SciFinder-n’”

18<sup>th</sup> February 2022, Friday; 3:00 – 4:30 pm

## Introduction

SciFinder-n helps researchers to locate latest discoveries and empowers them to locate most relevant, actionable literature to advance their research ideas forward. SciFinder-n has access to workflow tools designed to support multiple scientific research functions and requirements. This includes new features such as Biosequence Search, Chemscape Analysis, MethodsNow synthesis etc.

## Coverage of the Workshop

- Locate most relevant literature of your research areas
- Search for organic/inorganic/biological substances/metals/polymers etc.
- Conduct comprehensive patent searching
- Reactions/Processes – Design the scheme or scaffold of your choice (Predicted Retrosynthesis)
- Step-by-step Analytical methods
- Assess novelty of your idea/scaffold.
- Search by Bio-sequences (peptides and nucleotides)

## Resource Person: Mr. Vinit Kunte

Vinit is working at ACS India as a customer success specialist. His responsibilities include customized trainings, demos and technical assistance for different CAS products.
