

Clarivate has announced the first edition of “**The beginner’s guide to authoring high quality publications - Powered by the Web of Science™**”.

This is a two-part certification series organised by Clarivate and aimed at providing students and early career researchers the requisite skills to:

- Do an effective literature search
- Learn how to avoid plagiarism and cite correctly
- Identify the right journals for your work
- Interpret submission guidelines
- Improve chances of acceptance into top-tier journals.
