

ONLINE WORKSHOP

On

CMIE's Economic Outlook, States of India & Industry Outlook

29th April 2022, Friday; 4:00 – 5:30 pm

Introduction

Economic Outlook is the solution to the requirement of reliable data. Economic Outlook is a comprehensive service which provides a complete picture of the past, the present and the future of the Indian economy. States of India is a statistical compendium of the states, union territories and districts of India. Industry Outlook is the risk management tool. It helps to prepare to better ride the business cycles while anticipating the future.

Coverage of the Workshop

- Introduction to the content of databases
- How to navigate and explore the databases
- Data download options
- How to use excel addin feature
- Q & A session
