

Training Session on *SciFinder*

Organized by Central Library, IIT Delhi in Collaboration with CAS
Key to Unlocking R&D Productivity using CAS SciFinder

SciFinder is a research discovery application that provides access to the world's most comprehensive and authoritative source of references, substances, and reactions in chemistry and related sciences. It is a product of the Chemical Abstracts Service (CAS), a division of the American Chemical Society (ACS), and is used to find information on chemical compounds, reactions, and scientific literature.
