7. Thank you page will appear. Click on Log in.

The screenshot shows a confirmation page from CAS. At the top left is the CAS logo. The main heading is "Thanks!". Below it, a message states: "You have successfully verified your login information. Going forward, you will access CAS products via your company's own portal or intranet. You can view and change your credentials in CAS Profile." In the center, there is a white box containing a blue profile icon, the name "Anand K", and the email address "ird12484@iitd.ac.in". Below this information is a blue "Log In" button.

8. SciFinder screen will appear.

The screenshot displays the CAS SciFinder interface. At the top, the CAS SciFinder logo is on the left, and a user profile for "Navneet Singh" is on the right. A greeting "Good Morning, Navneet" is shown. Below the greeting are navigation tabs for "All", "Substances", "Reactions", "References", and "Suppliers". A search bar is present with the text "Search by Keyword, Substance Name, CAS RN, Patent Number, PubMed ID, AN, CAN, and/or DOI" and a "Draw" button. Three search options are highlighted: "Retrosynthetic Analysis" (Make reaction plans with conditions, yields, catalysts, and experimental procedures), "Search CAS Lexicon" (Build powerful searches using CAS concepts, chemical classes, and taxonomy), and "Search CAS Sequences" (Query BLAST, CDR, and Motif algorithms for nucleotide and protein based sequences). At the bottom, a clock icon is followed by the text "Your Search History is Empty" and a sub-note: "When you start searching, your search history will show up here by date." A help icon (?) is located in the bottom right corner.
